PATENT OFFICE NOTICES

Trial Voluntary Protest Program

After reviewing the comments received as a result of the Notice of Proposed Rule Making entitled, "Protests to the Grant of a Patent," dated May 15, 1973, published at 911 O.G. 760, the Patent Office has decided to institute a Trial Voluntary Protest Program limited to 2,000 applications.

The underlying purpose of protest proceedings is to assist the Patent Office by bringing the best prior art and information relevant to the patentability of a patent application to the examiner's attention. Occasionally patents are held invalid by the courts because of prior art or other information which was not available or known to the examiner. Protest proceedings are intended to elicit from the public such prior art or other information not cited by the examiner which bears upon the question of patentability.

Several benefits are expected to accrue from protest proceedings. First, patents would have a more meaningful presumption of validity because of appropriate consideration by the examiner of additional evidence submitted by the public. Second, potential competitors of the applicant would benefit from having the opportunity to call to the attention of the Patent Office information that could either prevent a patent from issuing or lead to claims of more restricted scope. Further, the protest proceedings may be helpful in minimizing the more expensive conventional procedure of litigating the question of validity at a later date. Finally, the public would benefit from the resultant strengthening of the presumption of validity of patents granted on applications which underwent protest proceedings and the strengthening of the patent system for its intended purposes.

Since legislation is pending in Congress which would make opposition or protest proceedings mandatory in all allowed applications, it appears appropriate and desirable to gain some experience at this time with a Trial Voluntary Protest Program. The Patent Office would welcome any comments, from those who elect to participate in the program, relative to their experience concerning the effectiveness, costs, etc.

Since the trial program is voluntary and limited to a selected number of applications, no rule changes are contemplated or considered necessary at this time.

Applications Involved

The 2,000 applications involved in the Trial Voluntary Protest Program will include 135 applications allowed in each of the 14 examining groups excluding Group 220, and 110 applications allowed in Group 220, after July 1, 1974. No other applications will be made part of the trial program. The applications in the trial will be limited to the 1970 filing date series and will exclude all reissue, plant, and design applications. Also, applications which have been invoved in proceedings before the Board of Appeals, the Board of Patent Interferences, or the courts will be excluded from the trial program.

Waiver of Confidentiality

A form letter will be sent to the applicant of each of the 2,000 applications involved in the trial. The letter will indicate that the application is one of the selected applications and will afford to applicant the opportunity to participate in the program by filing a voluntary waiver of confidentiality thereby making his application available for protest.

Response to Request for Waiver of Confidentiality

The applicant will have two months after the mailing of the form letter concerning waiver of confidentiality to either (1) file the waiver of his right to keep the application confidential, signed by the applicant, assignee of record, or attorney or agent of record, or (2) indicate that he does not desire to participate in the trial program. A response from the applicant to the form letter will be requested. Such response is considered desirable to allow prompt processing of all 2,000 applications selected for the Trial Voluntary Protest Program. No extension of the two month period will be granted.

If the applicant declines to participate in the program, his application will be forwarded to the Patent Issue Division for mailing of the Notice of Allowance. In these situations no record of the correspondence will be made in the application file. Also, the Patent Office will not keep any records concerning the identity of the particular applications where the opportunity to participate in the program was declined.

If a proper waiver of the right to confidentiality is submitted within two months of the date of the form letter regarding voluntary waiver, the application will be placed in the Trial Voluntary Protest Program.

Following an affirmative response a notice, identifying the application will be published in the Official Gazette similar to that used for patents. The notice will include necessary identifying information, including the examining group to which the application is assigned, an illustrative figure, a representative claim or claims, and a listing of references cited by the Patent Office.

On the date the notice is published in the Official Gazette, the application file will also be made available for public inspection for the duration of the protest period in the examining group and the application will be available in printed form similar to a patent. The printed application will include all the figures and the specification, including claims. All printed applications will be classified and placed in the Patent Office search files. Copies of the printed applications will be available to the public at the prices set by statute for patent copies.

Period for Filing Protest

Protesters will have a period of three months running from date of publication of the noice in the Official Gazette in which to file their protest in the Patent Office. Each protest must be filed in duplicate, and include the grounds which the protester believes have a bearing on the patentability of any claim contained in the published application. If the grounds are based on prior art, the protest should include a copy of the prior art together with an explanation of the relevance of such prior art to the allowed claims. In addition or alternatively, the protester will have the opportunity to comment on the manner in which the prior art of record was applied and raise any other matter which may affect the patentability of the claimed invention. In cases where prima facie evidence is presented as to prior public use or sale of the invention, the public use proceedings set forth in Rule 292 will be used to provide the protester presenting such evidence with an opportunity to be heard. No extension of the three month period will be granted.

Protester Involvement

A protester may elect to either (1) have his identity kept secret and have no further participation in the proceedings or (2) be recognized in the application file and become involved in any future prosecution of the application.

In both instances the protester must initially identify himself and give his address; however, if he elects to forego future involvement, he may identify himself on a cover letter and request that the cover letter not be made of record. In such instances the cover letter will be destroyed upon completion of prosecution when the application is forwarded to either Patent Issue Division or the abandoned files.

Consideration of Protest

The published allowed application files will be retained ruring the protest period in the examining groups. The examining groups will receive all protests filed, acknowledge receipt thereof, and make them of record in the application files. At the end of the period for filing protests, three months after publication in the Official Gazette, those applications in which no protests have been filed will be forwarded to the Patent Issue Division for mailing of the Notice of Allowance, while those applications in which protests have been filed will be referred to the group director for decision as to whether prosecution should be reopened.

If the group director decides that the evidence submitted does not constitute a prima facie showing of non-patentability of any allowed claim, the application will be forwarded to the Patent Issue Division for mailing of the Notice of Allow-

ance. The protesters who elected to participate in subsequent prosecution will be notified that the prosecution has not been reopened, and the applicant will be sent the duplicate copy of all protests. The group director's decision will be final and not subject to petition by any protester.

If the group director decides that the submitted evidence constitutes a prima facie showing of non-patentability of any allowed claim, prosecution of the application will be reopened and the application will be re-examined. The decision to reopen prosecution will be communicated to the applicant by means of an Office action, signed by a primary examiner, rejecting any claim believed patentable. The duplicate copy of all protests will be mailed to the applicant with the Office action. Protesters who elected to participate in later prosecution and submitted evidence on which the rejection is based will be identified in the Office action and will also receive copies of this and subsequent Office actions. Other protesters who elected to participate in later prosecution will be notified that prosecution has been reopened, but based on evidence and for reasons other than those submitted by them and that, consequently, no further correspondence will be directed to them. The applicant will normally be given a three month shortened statutory period to respond to the Office action.

RESPONSE TO SUBSEQUENT OFFICE ACTIONS BY THE APPLICANT

As a result of re-exmination of the application, the applicant will be permitted to respond, such as by presenting amended or new claims which will be subject to further consideration by the primary examiner. In order to allow protesters, who submitted evidence on which a rejection in the Office action is based and who elected to participate in later prosecution, to comment upon further proceedings, applicant will be required to serve by mail upon each protester identified in the Office action, a copy of any response, including appeal brief, filed. Indication of such service will be a required component of a complete response. Applicant need only reply to the rejections and objections made in the Office action. There need be no specific response to any other points raised by the protesters.

COMMENT ON APPLICANT'S RESPONSE BY THE PROTESTER

Each protester served will be allowed one month, running from the date applicant's response or brief is received in the Patent Office, to file comments relating thereto. All communications from protesters must be in writing. Examiner interviews with the protesters will not be permitted. No extensions of the one month period will be granted.

CONCLUSION OF PROSECUTION

If, after further prosecution, the application is found to be allowable, all protesters still participating at that time will be notified thereof and the application will be forwarded to the Patent Issue Division. A decision of the primary examiner to allow an application will not be subject to petition by any protester.

MARKS PUBLISHED FOR OPPOSITION

The following marks are published in compliance with section 12(a) of the Trademark Act of 1946. Applications for the registration of marks in more than one class have been filed as provided in section 30 of said act as amended by Public Law 772, 87th Congress, approved Oct. 9, 1962, 76 Stat. 769. Opposition under section 13 may be filed within thirty days of the date of this publication. See Rules 2.101 to 2.105.

A separate fee of twenty-five dollars for opposing each mark in each class must accompany the opposition.

SECTION 1.—INTERNATIONAL CLASSIFICATION

Application in more than one class

SN 2,747. Safeway Stores, Incorporated, Oakland, Calif. Filed Oct. 4, 1973.

Owner of Reg. Nos. 817,203 and 960,188.

Class 16

For Clear Plastic Wrap (Prior U.S. Cl. 37).
First use June 22, 1972.

Class 22

For Lawn and Leaf Bags (Prior U.S. Cl. 2).
First use Sept. 9, 1973.

SN 8,800. Teijin Kabushiki Kaisha (Teijin Limited), Kita-ku, Osaka-shi, Japan. Filed Dec. 14, 1973.

WONDEL

Class 24

For Woven or Knitted Synthetic Textile Piece Goods (Prior U.S. Cl. 42).

Class 25

For Articles of Clothing for Men and Women—Namely, Men's Shirts, Suits, Coats, Slacks, Trousers, Raincoats; Women's Ready-Made Shirts, Dresses, Coats, Blouses and Skirts (Prior U.S. Cl. 39).

First use Oct. 20, 1973; in commerce Nov. 27, 1973.

SN 10,108. Frame King, Inc., Cincinnati, Ohio. Filed Jan. 4, 1974.

FRAME & SAVE

The word "Frame" is disclaimed apart from the mark as a whole.

Class 20

For Picture Frames (Prior U.S. Cl. 32).

Class 42

For Retail Store Services Specializing in Frames and Framing Equipment (Prior U.S. Cl. 101).

First use Dec. 12, 1973.

SN 11,261. Georgia-Pacific Corporation, Portland, Oreg. Filed Jan. 18, 1974.

GEORGIA-PACIFIC

Class 16

For Paper Towels and Toilet Tissue (Prior U.S. Cl. 37).
First use at least as early as 1963.

Class 21

For Dispensers for Paper Towels and Toilet Tissue (Prior U.S. Cl. 13).
First use at least as early as 1964.

SECTION 2.—INTERNATIONAL CLASSIFICATION
Application in one class

Class 1

SN 1,978. Philadelphia Quartz Company, Valley Forge, Pa. Filed Sept. 27, 1973.

MILANUL

For Laundry Additive for Mildew Inhibition for Industrial Use (Prior U.S. Cl. 6).
First use Dec. 4, 1972.

SN 3,632. Kemanord AB, Nacka, Sweden. Filed Oct. 15, 1973.

LILADOX

Owner of Reg. No. 126,867.
For Polymerization Initiators (Prior U.S. Cl. 6).
First use April 1969; in commerce May 1970.

SN 4,134. Heatbath Corporation, Springfield, Mass. Filed Oct. 19, 1973.

OXICOAT

For Chemicals for Immersion Treatment of Chromium and Stainless Steel Alloys (Prior U.S. Cl. 6).
First use Mar. 21, 1969.

SN 4,135. Heatbath Corporation, Springfield, Mass. Filed Oct. 19, 1973.

NOHEX

For Chemicals for Immersion Treatment of Electroplated Zinc, Galvanized and Zinc Die Casting for Producing a Bright Stain-Resistant Coating Thereon (Prior U.S. Cl. 6).
First use Apr. 21, 1971.

SN 4,137. Heatbath Corporation, Springfield, Mass. Filed Oct. 19, 1973.

BONDCOAT

For Chemicals for Immersion Treatment of Galvanized and Zinc Surfaces To Improve Adhesion of Subsequently Applied Organic Coatings and To Prevent White Corrosion of Unpainted Surfaces (Prior U.S. Cl. 6).
First use July 1, 1970.

Class 3

SN 93. Jack Cantwell, Inc., New York, N.Y. Filed Sept. 4, 1973.

AROUSE

Owner of Reg. No. 975,117.
For Flavorings for Beverages Being Essential Oils (Prior U.S. Cls. 6 and 46).
First use July 10, 1972.

SN 2,391. Chemed Corporation, Cincinnati, Ohio. Filed Oct. 1, 1973.

FLOORIFIC
